*All finishes available with antimicrobial additive

*All finishes available with clear gloss or matte topcoat add

*All finishes available in smooth and texture

*AAMA 2604 exterior grade compliance upon request

*Color swatches are shown for example only. Due to color variation in the finishing process, the swatches are not intended as exact matches.

*Wood grain finishes are an electro-statically applied polyester powder-coat process which is applied to the metal after forming and perforation is complete.
